Saint Michael's Junior School
Hong Kong.

Dear Principal,

Re: WANG Gillian

My daughter who is nearly six years old. As parents we notice that she is always been attracted to carrying, sharing, helping or working together with other children, once she has finish Kindergarten in this summer. We now plan to support my daughter to study at your school at the beginning of September 2009.

Therefore we feel that the school I applying for will be a natural continuation following on an enriching my daughter further in different area. She would like to explore or developed. We also know that your school has a good reputation to teach children to develop. My daughter's hobbies include reading, traveling, writing, dancing, singing, story telling and she also enjoy a different social life. Moreover it is a golden chance which you provided for her to have an interview.

I am looking forward to hear from you as soon as possible.

Yours faithfully

WANG Chuck, LIN Caroline
